Five Candidates in the Field for Mayor and the Official Count Necessary Before the Result is Known-The Kepublicans Elect the Balance of Their Ticket. Elections In Other Cities.

CHICAGO, April 8.—The polls closed at 4 o'clock yesterday afternoon on one of tho most exciting municipal elections ever known in the city of Chicago. The day was bright and sunny, and this, coupled with the fact that there were five candidates for the mayor's chare viz: Dewitt C. Cregier, 1 emocrat, the pre-ent incumbent; Hempstead Washburne, Republican, Carter H. Harrison, Independent Democrat; Elmer Washburn, independent ken blican and burn, independent kep blican, and Thomas Morgan, Socianist, caused a very heavy vote to be cast.

Singularly eaough, after so bitter a campaign, in which so many conflicting interests were arrayed against each other, there was less brawling and fighting than was less brawling and fighting than was expected.

Ro urns received up to this hour indicate the election of the full kepublican city ticket composed as follows: A ayor, Hemp tead Washburno. Treasurer, Jacon Tiedemann: City attorney, B. F. Richolson. City Clerk, James R. B.

As Mayor Cregier, Democrat, is rnn-ning ahead of his ticket it is safe to assume that the majorries on the Republican ticket outside of the mayor will be above 5,000.

It is impossible at this hour to rive any indication as to the comple and of the next city conncil as the remrns on the vote for aldermen are coming in very slowly.

Mayor Cregier's friends claim his election by a ma ority of 240. The result will not be definitely known until later in the day.

As he did so an unknown man in the crowd drew a nevolver and fired at the retreating negro, striking him in the back and inflicting a dangerous but not necessarily fatal wound. Tinan was arrested, but subsequently re-leased. The police are looking for the man who did the shooting.

Another Fatal Charrel A row letween Republicaus and Democrats at the Nineteenth precinct of the Thirtieth ward resulted disastrously to J. H. Clark, a Republican, who became engaged in the dis. ute. Clark was knocked down and his chest kicked in. He was taken to his home, where his iujuries were prenounced fatal. Police officers are at work on the case.

SITUATION IN CHILL.

The Cause of the Revolutionists is Making Progress.

PANAMA, April 8.-Passengers who have just arrived in this city by steamer from Vaparaiso declare that the cause of the revolutionists is making progress. They assert that in the city of Valparaiso the sentiment of the revolutionary party is becoming very strong. It was pretty generally expected when they left there that on the arrival of the fleet, the troops now adhering to the Balmaceda government would ronounce their allegiance and go over to the opposition.

It is argued that President Balmacela realizes that his cause is waning from the fact that he is recruiting his forces from the prisons. The reports of loss of life and property resulting from the revolutionary uprising which have reached the outside world, these passengers declare, have been much exagger-

Mr. l'arnum's illness and confinement to the house began twenty-one weeks ago, and during this period there have been fre neat inctuations in his condition. The change for the worse, which occurred Monday night, was, however, to much more pronounced than the previous attacks had been that the attending physicians became convined that the great showman had but a few more hours of life left. Mr. I avanua suffered a good deal of pain and scened to realize that he could not live unch longer, but he spoke of his approaching end with calumess, and told his physicians when all hope was gone he wished to be given sedatives which would allay his pain sedatives, which would allay his pain and make his death as peaceful as possible. Mrs. Barmum remained at hor husbands side throughout the night. At about 4 o clock yesterday morning the patient sunk into a lethargy, which was a condition of stupor rather than of natural sleep. It was very difficult to rouse him from this state and a faint glim of recognition in his eyes alone indicated that he had my knowledge of his surroundings.

Thus matters went on until about 10 o clock. At that hour he was again aroused and his m ntal faculties appeared to be brighter than at any time during the previous four hous. All of nted the following demands:

his friends and relatives were in the chamber at this time and the scene was a deeply pathetic one. Mr. Barnum was fully conscions but unable to speak, and the affectionate mes ages he conveyed with his eyes to his weeping loved ones were more expressive than words. Rev. Mr. : isher bent over him and spoke words of religious consolation, to which Mr. Barnum half nodde i his head in assent.

About 11 o'clock another sedativo was given and soon afterwards he sank into a peaceful sleep. At half past 3 in the afternoon Mr. Parnum sank into a comatose condition and from this condition he never rallied, and when the end finally came it was peaceful and to all appearances painless. The physicians say that Mr. Barmin had no organic disease whatever, the enfeebled heart action, which has been noticed for the past few months being due, in the opinion of his physicians, to a gradual failure of his mental powers, resulting from old age.

Mr. Barnum, in a general way, had prescribed directions for his funeral. He wished it to be of a strictly private character. He directed that the interment should be in the Mountain Grove cemetery, where several rears ago he erected a massive granite ur numont of a simple design. The funeral services will be held in the North Congregational chur it on Friday, and will be conducted by hev. L. B. Isher, the Universalist pastor, assisted by Rev. Charles E. Paluier, of the North Congational church.

An effort will probably be made to induce the family to have the obsequies public, but the family, from present indications, will strictly adhere to the wishes of the deceased.

Some persons have an idea that it is a difficult thing to write articles for newspapers. Not so, by any means. The difficult thing is to get newspapers to publish the articles after they are written. Your notice of the battle of Shifoh reculis to

our memory the galburt, innuisome and talented taptain Samuel T. Forman, son of our inte honored and respected citizen, Geo. L. Forman, who offered up his heroic life on that bloody field, and left in the fore-front of buttle.

Why is it we so often hear of the given offense of selling figure to a pulnor? The answer is plain and shuple. It is of minors that drunkards are made, and without this continual angmentation of the drunkards' numbers from the young, the hellish traffic muse comt to a stand

Poor George Lewis! We knew him well. A young man, sprightly, hundsome, bilented, fitted to grace almost any walk in ille, but in an evil hour he fell a pray to that soul and body distrover, rum. Rum, thou emissary of hell, when will thy rule have its end, thy capacious maw be satisfied?

We have heard of a former in this county, one not incking in worldly goods, who would steal the hat off your head were he to catch you asleep. He has been known to steal lumber, nails, sacks of wheat, colls of fence whre, &c., from his neighbors. If this should happen to meet his eye, we hope it may have the effect of turning him from bis evil ways.

President Lincoln got off one of fils best jokes apropos of the Joy Mountain battle in Eastern Kentucky. It will be remembered that this fight was heralded as a great victory for the Federals, so much so that many people thought one corner of the Confederacy had surely been knocked out. If you have never heard the witty remark Mr. Lincoln made after the true returns of the memorable action cannot be very myseaff one of orable action came lu, you have missed one o his best wittleisms.

ADVICES FROM JAPAN

Fallure of Rice Crop Causes Falling Off of Exports.

TRADE GREATLY DECREASED.

The United States and France the Losers. A Sensational Story Denied-War Vessels Ordered to Coren-The Cznrowitz Not Yel Reached Hong Kong.

SAN FRANCISCO, April 8. - A lvices received from Yokohoma and Hong wong by steamship Rio de Juneiro state that returns from the customs department of apan for the year 1890 state exports as showing a falling off of \$13,500,000 and imports an excess of \$14,000,00 over the previous year. This was owing to the lailure of the rice crop and the holding of silk for better prices.

The Lidted Stides a Loser. Of the trade with different nations, the decrease is the greatest with France and the United States. Germany, however, shows a large increase, as do Corea and Australia. Silk season of iSto-1 will show decreased exports, and tea will have a falting off in value.

Scusational Story Denied.

The Japan Daily Advertiser publishes a contradiction of the sensational story printed in the American papes some time ago. The story was told by Capt. Morris, of the sealing schooner Helena, in which he stated Russian cruisers captured three poaching sealing schooners, killing seven of the Japanese without cause. Morris told a tale of frightful punishment in having to work two years in the Siberian coal mines, not seeing daylight for two years, and teing chained to a maniac.

The Advertiser prints a statement from from the commander of one of the seized vessels. He says that three schooners were captured for poaching and the vessels tallen to Vladiovslock and confiscated. Morris was on the Helena, but not us captain. The officers and crews were turned loose on the beach and two weeks aftewards were taken to Yokohoma on the steamer. The men were all treated well and suffered no privations.

Resignations.

Mr. Naka ima, president of the house of representatives, has resigned his post. The resignation is attributed to charges of partiality brought against him.

DOUBLE SUICIDE.

Two Women Kill Themsevies Locked in Each Other's Arms.

FE, N. M., April 8. of an Easter Sunday tragedy at White Oaks, N. M., has reached here, the affair being a double suicide in which two young women, formerly of Liberty, Mo., were the principals. The names of the women are Mrs Howard Doyle and Miss Jessie Ridgley. Mrs. Doyle has been separated from her burker!

Samuel Osborne, a prominent contractor, tells me: "John MacMillan, you can't say too much for Chamberlain's for some time and had made a confidante of Miss Ridgley. It is thought that Mrs. Doyle was despondent and had prevailed upon Miss Ridgley to commit suicide at the same time. The bodies of the women were found in a lonely part of the town. Over the heart lonely part of the town. Over the heart of each was a bullet hole. They were clasped in each others arms, and between them was a revolver, which usually had a place on the mantel in Miss Ridgley's bedroom. Their hats hung on a post near by; their clouds had been neatly folded and served as head rests, and to each cloak was pinn d notes to various friends. One letter expressed the desire that they be buried in the same grave. None of the letters gave the reason for the rash act, only: Death is sweet, and we prefer it to

She took a dose of laudanum equivalent to twenty-three grans of morphine, but her life was saved by the prompt action of two physicians. The cause was despondency produced by an incurable disease of the joints.

Fatal Cases of La Grippe.

Gosnes, Ind., April 8.-La grippe. while not so alarmingly prevalent here, seems to be proving very fatal in its effects, particularly among the old peo-ple. Mrs. Henrietta Travis, aged 60, and Mr. John McClure, aged 55, died Sunday evening, and yesterday morning Miss Julia E. Bryant, aged 60, died after a short attack.

Southern Indiana's Fruit.

ROCKPORT, Ind., April 8.—A careful examination of the fruit buds in several counties of southern Indiana proves that peaches, plums and years are uninjured by frost, and give promise of an abundant yield. The season is one month late for oats and potatoes. Wheat is in fine condition.

Preparing for the Remains in California A private letter states that Mrs. Swift expects to leave for San Francisco with the remains of her husband on the Eelgic on the 23d inst., to arrive about dead. It is further suggested that a fleet of United States naval vessels be anchored in the harbor two days before the expected arrival of the Belgic to await her coming. Arrangements are being made to have her enter part during the day time, and as she steams in, the batteries on the shore will fire guns for afteen minutes as she passes them, and the fleet to do the same as she passes through their lines, accompanied by the usual marks of respect on such occasions, such as half-masting colors, etc.
